

IMPORTANT INFORMATION ABOUT THE AVAILABILITY OF ACCESSIBLE NAVIGATION DEVICES

ANNE ARUNDEL BROADBAND makes available in certain of its cable television systems equipment that helps our blind and visually impaired customers access our cable television services. We provide this notice to give you information about this equipment and how you can request it.

- **Availability of the ANNE ARUNDEL BROADBAND Accessible Receiver**

In certain markets, our blind or visually impaired customers ¹can contact us to request a navigation device with on-screen text menus and guides for the display or selection of video programming that are audibly accessible in real time.

- **Accessibility and Compatibility Features**

The device offered by ANNE ARUNDEL BROADBAND is manufactured by TiVo (the “ANNE ARUNDEL BROADBAND Accessible Receiver”), and allows many functions used for the display or selection of video programming (like program selection, playback functions and volume controls) to be audibly accessed through on-screen text menus or guides. For more information about the accessibility features of the ANNE ARUNDEL BROADBAND Accessible Receiver, please call us or click on the Accessibility link at the bottom of our home page.

- **How to Request a ANNE ARUNDEL BROADBAND Accessible Receiver; Contact Information**

To request an ANNE ARUNDEL BROADBAND Accessible Receiver, or if you have any general and specific questions about the availability of accessible equipment, please contact us at (410) 987-9300.

Effective: December 20, 2016

¹In some of our smaller systems, this equipment may not be available until December 2018. Please contact us for availability.
