07/16 (Rev. 11/12)

U.S. DEPARTMENT OF COMMERCE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

DIVING EMERGENCY ASSISTANCE PLAN

NAME OF VESSEL: _____ DATE OCCASION: _____ DATE: _____

INSTRUCTIONS:
Complete a Diving Emergency Assistance Plan (DEAP) for each unique diving location and submit the plan to 800-442-6242/800-442-6243 with the relative dive plan and every time any information on the DEAP changes.

GENERAL PROCEDURES:

1. Evaluate the victim's circulation, breathing, and breathing (CAB). If necessary, begin cardiopulmonary resuscitation (CPR) using a manual resuscitator (MFR) or bag-valve-mask (BVM).
2. If the victim is breathing, but unconscious, place the victim in the recovery position and administer oxygen using a non-rebreather type mask.
3. If the victim is awake and alert, place the victim in a position of comfort and administer 100% oxygen using an MFR/demand oxygen regulator or non-rebreather type mask. If the victim is not nauseated, give clear non-alcoholic/non-carbonated fluids to drink.
4. If the victim's condition is life threatening or urgent, call the local Emergency Medical Services (EMS) or U. S. Coast Guard (USCG) for transport to the nearest medical treatment facility.
5. If the victim's condition is not urgent, contact the NOAA Dive Medical Officer (DMO) for guidance. If unable to reach the NOAA DMO within 15 minutes, contact the Divers Alert Network (DAN).
6. Use the Dive Accident Management Handbook/Reference Guide to document a neurological exam and dive history information.
7. Gather additional information about the incident and prepare the victim for transport.
8. Secure the diver's gear for inspection. **DO NOT DISASSEMBLE GEAR OR EQUALIZE AIR FROM THE SYSTEM.** Clean the regulator valve O-ring. Count and record number of pumps required to secure the valve.
9. Call and speak to the NOAA DMO, (800) 832-0296 (DMS), to report the incident.
10. Call the Law Office Diving Officer (LODO) to report incidents. If unable to reach the LODO, call the Deputy LODO. Continue calling until **gating** contact is made. Speak to a person, don't just leave a message.

preparing for emergencies, be ready for a variety of scenarios. With our platform submitting Padi Emergency Action Plan only takes a few minutes. If... Mental readiness — Be an aware diver. Stop any bleeding you find, and provide oxygen. dutch springs emergency action plan divers alert network emergency action plan padi diving accident management flowchart How Good Is Your Emergency Plan? – featured from DAN (Divers Alert Network) Few people actually consider that DAN’s emergency on-call staff answers more than 3,500 calls to the DAN® Emergency Hotline each year. Be honest with yourself prior to diving; if you are feeling less than 100 percent healthy, it may be best to postpone diving. DAN is a part of your emergency plan, but there are many other parts you must put into place yourself. Consider hazardous marine life, currents and the potential for rapid changes to weather or sea conditions. Access the most extensive library of templates available. How does your plan measure up? Fill in the necessary boxes (they are marked in yellow). Routinely inspect the contents of your first aid kit to ensure nothing is missing, damaged or expired. Learn more Emergency procedures — Besides these skills, which may be categorised as standard... This person ensures everybody knows what they need to know. Documentation — Good notes allow caregivers to observe trends in an injured diver’s condition, serve as a reminder of what treatments have been administered and provide legal protection. Remember that injured divers should always be taken to the nearest medical facility, not the closest chamber. Dive with care. DAN offers the Basic Life Support and First Aid and the Oxygen First Aid for Scuba Diving Injuries courses, among others. Not all dive emergency plans are created equal, but all have the same purpose: to list essential considerations and provide a framework for performing key functions in response to an incident. Emergency plans can be divided into three sections: prevention, preparedness and response. Guarantees that a business meets BBB accreditation standards in the US and Canada. AED Related content GENERAL PROCEDURES: A. Communications and logistics — Good coordination of the various parties involved in an emergency reduces everyone’s stress. Remember that DAN is here to answer any questions you may have about your emergency plan, but we can’t create it for you. Highest customer reviews on one of the most highly-trusted product review platforms. Knowledge of local hazards — Familiarize yourself with potential hazards unique to particular dive sites. Click “here” to read our Cookie Policy. Not surprisingly, a considerable number of these calls involve situations that could have been managed with good planning and a careful eye to preparation.
